Application

The GPN 310 grip plugs are suitable for protecting bore holes and internal threads. The handy tab facilitates easy handling as well as fitting and removal. Flexible ribs cover larger tolerances.

All information about 100% PCR and the recycling blend can be found in "Sustainability at Pöppelmann" (see chapter 2) or at www.poeppelmann.com/en/kapsto/Responsibility.html

Information on materials, colours, designs and use of our products can be found on the website and in chapter 3 'Materials and application'.

The articles in the 100% PCR column consist of 98% PCR-PE and 2% colour based on a PIR carrier. The plastic used consists of 100% PCR.

The articles in the recycled mixture column consist of a blend of PCR and virgin material. Colour deviations and black dots cannot be completely avoided during production and are permissible for these items. We recommend carrying out functional tests before series production.

Your added values:

More resource-saving.

This standard series is available from PCR, saves CO₂e emissions and conserves resources.

Saves time.

Practical tab for easy handling.

More versatile.

Flexible ribs for accommodating large tolerances.

Better.

Protection for bore holes and internal threads.
