

Protective Dust Plugs GPN 930 Type A

www.poeppelmann.com/en/gpn930a

Application

The protective dust plugs GPN 930 Type A protect open plug-in couplings, particularly the thread, from damage and dirt and have a captive design with PE-LLD tab. The dust plugs have a thread and prevent the ingress or escape of liquids within certain limits.

Dimensions in mm.

*Eyelet of lug not slotted.

Information on materials, colours, designs and use of our products can be found on the website and in chapter 3 'Materials and application'.

Your added values:

Better fit.

Protects open plug-in couplings, and particularly their thread.

Seals better.

Prevents damage and contamination and provides limited sealing action.

Better.

Threaded. Self-retaining design due to integral strap.
