

Assembly tool KAPSTO BIT

www.poeppeleppmann.com/en/bit73x

Application

Optimum protection during production, storage or transport: KAPSTO® BIT-73X from the KAPSTO® standard range with over 3,000 versions, offers the best possible protection for your application and is always available from stock. Each protection cap or plug is available as a CAD data download. We are also happy to send you free samples for testing. Or you can contact our KAPSTO® application consultants on +49 4442 982-9100 or kapsto@poeppeleppmann.com. This is also possible directly via our contact form.

Information on materials, colours, designs and use of our products can be found on the website and in chapter 3 'Materials and application'.

This application table represents guideline values. We would be pleased to send you free samples.

Your added values:

More versatile.

Only one assembly tool required for all sizes of the standard series GPN 730 and GPN 735 – GPN 738 (95 different screw plugs).

Saves time.

Quick installation and removal.

More robust.

Sturdy stainless steel construction.

Better fit.

The shaft is designed for screwdrivers with a socket pursuant to DIN ISO 1173.

Better.

The bit can be used with commercially available screwdrivers with drill chuck.
