

Application

The screw plugs GPN 720 Type B are suitable for a wide range of internal threads. The sealing cone prevents the ingress or leaking of liquids within certain limits.

All information about 100% PCR and the recycling blend can be found at www.poepelmann.com/en/kapsto/Responsibility.html

Information on materials, colours, designs and use of our products can be found on the website and in chapter 4 'Materials and application'.

Customer Information pursuant to Art. 16 of the PPWR (EU Regulation 2025/40): To the best of our current knowledge and based on information from our raw material suppliers, the products we supply do not contain the heavy metals listed in Article 5, paragraph 4 of the PPWR (lead, cadmium, mercury, and hexavalent chromium) in a total concentration exceeding 100 mg/kg. Pöppelmann neither intentionally adds these regulated substances as components nor are they expected to be present in impermissible concentrations as impurities resulting from the manufacturing process.

Furthermore, according to information from our suppliers, our products do not contain any substances of very high concern (SVHCs as defined in the current REACH Candidate List) in a concentration exceeding 0.1 percent by mass. Pöppelmann does not intentionally add these substances during the manufacturing process. Any presence below this reportable threshold is attributable to unavoidable, raw material-related impurities or technical specifications set by raw material suppliers, which, for us as a processor, represents the technically unavoidable minimum within the context of quality and raw material properties.

Your added values:

Seals better.

Depending on the application, the sealing cone will prevent penetration or leaking of liquids.

Better.

Immersible screw plug with hexagonal socket.

Seals better.

Protection against foreign objects >1 mm
